

# 2023 IMPACT

As we turn the page on 2023, Feeding Charlotte reflects on a year marked by both immense challenges and extraordinary triumphs in the fight against food insecurity and food waste.

FEEDING  
CHARLOTTE

In 2023, we served the following organizations and populations:

- General feeding programs
- Live-in facilities
- Transitional housing facilities
- Afterschool programs
- Summer camp programs in underserved communities
- Refugee housing communities
- Senior citizens

# A Word From Our Partners...

“Being a Recipient Partner with Feeding Charlotte means that we can feed between 150-350 extra mouths per month. The partnership also allows us to have additional opportunities to create relationships within our community. Our Relationship with Feeding Charlotte has significantly increased our capacity to feed individuals who look to us to fill that void.”

**Rodney McGill**

Food Recipient Partner  
The Save Our Children Movement

“We love partnering with Feeding CLT. It not only helps us with not wasting/throwing food away, but gives each of us a sense of giving back to the community to those that are less fortunate by providing a warm meal for them to enjoy.”

**Patch Hadden**

Food Donor
